

This is in regards to the future of K-LOVE. This christian radio station is very positive and encouraging to me. I listen to this station all the time and K-LOVE really impacts my life.

If this radio station is ever displaced, then the people who listen and the ones who could have learned about great values in life will be missing out. I believe that K-LOVE radio is vital to our listening community because of the great values, wisdom, peace and many other consoling things they play on the radio. For our country, USA of which is founded on "Christian values".
